Emergency Services
(see page two for details)

West Sound Service Area - ES Department

Updated December 1, 2006

Notes:

1. The WSSA ES Manager reports directly to the West Sound Service Manager.
2. Chapter ES Director & ES Staff from Seattle Office provide Program Policy Guidance, Service Delivery Standards, and both technical & logistical support.
3. However, during a DR operation, all WSSA ES staff & volunteers, as well as other staff & volunteers throughout the Chapter that are assigned to the DR, work for the designated Chapter Disaster Relief Operations Director or respective Group/Activity for that DR.
4. In the event that there is a DRO Director assigned from outside the Chapter for a local or regional DR, then all Chapter staff assigned to the DR work for the DRO Director as assigned, regardless of their Chapter position.
